

MAIN TRACK		PRESENTER	WORKSHOPS
08:30	Registration and welcome coffee		Seats are limited Save your spot!
09:00	Keynote AI Powered Automated Test and Measurement Nigel Across the Workflow with Demo Agentic AI Accelerated Productivity Adding value with YVAIN - System builder with Demo	ADD ProS, Emerson/NI, Yotta Volt	
10:30	Technical session What’s New in NI SW and HW	ADD ProS	
11:00	Technical session From Sensing to Action: Scalable Measurement and Control (DAQ)	ADD ProS	
11:30	Coffee break		
12:00	Technical session Advanced RF Test Strategies with NI Systems	Emerson/NI	DAQ/PXI/XJTAG Workshop 1
12:30	Technical session Control LabVIEW Applications with LLMs	ADD ProS	
13:00	Technical session Secure Test Software: How Cybersecurity Will Change your Job as a Test Engineer	Emerson/NI	
13:30	Technical session NI Academic strategy and roadmap	ADD ProS	DAQ/PXI/XJTAG Workshop 2
14:00	User solution Solutions for HV test in laboratory and production floor	ADD ProS	
14:30	Lunch break		
15:30	Technical session AC/DC power supplies and electronic loads for test	Chroma	DAQ/PXI/XJTAG Workshop 3
15:50	Technical session Transform Your PCBA Testing	XJTAG	
16:10	Technical session HIL Real-Time Simulation for Modern Grids, Power Electronics & Electrification	Opal RT	
16:30	User solution Foolproof reliable automated PCB test	Rimac Technology	DAQ/PXI/XJTAG Workshop 3
16:50	User solution Vibration field measurements with GPS position	Faculty of Civil Engineering University of Zagreb	
17:10	User solution Technological solutions for laboratory based on the NI platform	Richtiger	
17:30	Networking
